OTEC's energy efficiency program budget may be limited and is time sensitive; therefore, pre-approval of all projects is required. Energy efficiency (EE) projects must comply with the current BPA and/or OTEC standards. OTEC reserves the right to withdraw a project if not completed within 90 days of this signed agreement. Any deviation from program standards without written authorization from OTEC may invalidate the project and a member's qualification for the energy efficiency program. The member agrees to release OTEC and hold it harmless from any and all liability associated with the completed work or material installed or applied through an EE project. All energy savings results are assumptions and estimates from acceptable standards of installed material. OTEC is not responsible nor guarantees any stated or estimated energy savings from this program. The selection and use of acceptable and conforming material is the sole responsibility of the member and OTEC assumes no warranty of the service or material.

(qualified OTEC member), I certify that I have read and understand the OTEC program agreement and agree to abide by those requirements. I certify that to the best of my knowledge the information on this application is true and correct.

# New Pump Efficiency Upgrade

## Project Information Form for BPA-Qualified Measure

**Instructions:** To be eligible for a reimbursement, pump must replace an old in-efficient pump with a new pump (not a rebuilt or used pump). Please complete this form to the best of your knowledge for each new pump efficiency upgrade. Submit the form(s) to your serving utility.

### A. FARM AND SITE INFORMATION

Serving utility: Oregon Trail Electric Cooperative	
Farm identifier:	County Oregon
Meter # of pumping plant with new pump:	Member #:
Primary pumping plant lift (Ft.) from water source (e.g. Well or canal water surface): Ft.	

### B. PUMP INFORMATION

Total irrigation system size (acres) served by irrigation pumping plant:		acres
Old Pump horsepower (pump must be between 20 hp and 500 hp)		hp
New Pump horsepower (pump must be between 20 HP and 500 HP)		hp
Age of old pump being replaced	years old	Old Pump rated efficiency %
New pump impeller type used:	<input type="checkbox"/> Bronze	<input type="checkbox"/> Stainless steel
New Pump Head TDH	New Pump Flow GPM	New Pump rated efficiency %
Attach pump Curve, Mark operating point, and indicate pump manufacturer and model here		

### C. ANNUAL ENERGY-USE INFORMATION (Utility can complete this section)

	2019	2020	2021	2022*
Primary pumping plant (kWh/yr)				
Meter Number				

\*2022 data will be entered after completion of the 2021 irrigation season

### D. FINAL INFORMATION

Total installed cost of the upgrade (before the incentive): <i>Cost includes equipment, labor, and taxes.</i>	\$
Have you received any other incentive(s)?	<input type="checkbox"/> YES <input type="checkbox"/> NO

### SIGNATURE

By signing this form, I confirm that the above information is correct to the best of my knowledge.
